15	Girls must stay at home and boys must work
18	Studying what I am suited for will give me success
21	Luck is all that matters for success
23	I must overcome barriers in my path
24	Everyone is doing it, I must do it also
26	If I match my potentials to my career I can have better success
30	Science is the only subject that gives good jobs
40	Vocational courses have less scope
45	My success depends on how well I do in my subjects
48	If I fail, I will try again
53	My teacher is not good. So I cannot study
55	Even if some subjects are difficult, I am ready to work hard
58	If I find something difficult, I will ask for help
61	My father has good influence, so I need not study so hard
67	After 10 th grade, I must think and choose the subject best for me

How to Play:

- Each player should have a counter to play with. It could be smallstone or lump of paper.
- Write the numbers 1 to 6 on small chits of paper.
- The player should pick one chit and move his/her stone/counter on the chart according to the number he/she gets.
- If 3 is picked, the player can move 3 boxes and so on. After that the next player should play.
- Some of the squares are "hotspots".
- As you play, you might land on a Hotspot in which the arrow takes you up or down.
- Why is this happening? Look at the Career Belief Chart to know why you are going up or down.
